
EN

Deep color™ - Allows an HDTV to go from millions to billions of colors for the most natural picture.

Transfers hi-definition video signals between components.

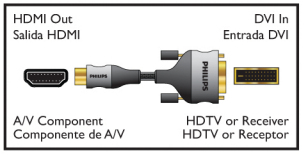
1. 24 Karat gold plated connector optimizes signal transfer.
2. Molded strain relief for maximum durability.
3. Copper braided reinforced aluminum shielding protects against signal loss and EM/RF interference.
4. Copper conductors provide reliable signal transfer.

ES

Deep color™: permite que un HDTV pase de tener millones a miles de millones de colores para obtener imágenes de mayor realismo.

Transfiere las señales de video de alta definición entre los componentes.

1. Conectores enchapados en oro de 24 K.
2. Alivio de tensión moldeado para mayor duración.
3. La cubierta de aluminio reforzado con revestimiento trenzado de cobre evita la pérdida de señal y la interferencia EM/ER.
4. Los conductores hechos de cobre ofrecen una transferencia confiable de la señal.



Limited one year warranty, details inside.
